

Dear HS Coaches and Prospects:

Hello, my name, is Andrew DePuy and I am the Club Golf President of Niagara University's Club Golf program. After starting the program up two years ago as a freshman in college the program has taken off better than I could have ever imagined. With that said, I would like to be able to leave a lasting imprint on the school by building a competitive golf program for years to come, that gives local high school golfers who may not be able to compete at the NCAA Division 1 level an option to continue playing competitive golf after high school. We play in the NCCGA which is a nationwide growing competitive golf option for college age kids. Their website can be found online by simply typing in NCCGA on google or the link is nccga.org. We have been a very solid contender in our only two years of competition up to date and, have just attended our very first national tournament just this past spring season. We have players of all skill levels participating in our program as we have both a tournament team and a recreational one but, for our tournament team we usually like to ask for players both guys and girls who can shoot in the high 70's to mid-80's as these are good scores for our tournaments in the western New York region. If you have any questions or just would like more information I am available to be reached any time at either my phone 717-580-1260 or my email a.depuy3095@gmail.com. Look forward to hearing from all of you hopefully soon.

Thanks,

Andrew DePuy

Niagara University Club Golf- President
